MR. RYAN: Objection.  A. There is a difference there. And there's a percentage difference, yes, sizable percentage difference.  What I'm struggling with is on this page 16, if that allowance percentage is the contractual allowance percentage or the bad debt reserve percentage.  Q. All right. Let me see if I can help you with that. Why don't we go to page 22. This is a listing for the Patcom receivables.  A. What page?  Q. Page 22.  A. Okay. Q. This appears to me at least, and correct me if I'm wrong, if appears to be a listing of the outpatient receivables at Elkins residing in the Patcom system.  A. Right. Q. Right? And then there's a little handwritten note that  A. That's mine. Q looks like your handwriting.		next schedule, what you were referring to as contractual allowance for these accounts, at least the outpatient accounts?  MR. RYAN: Objection.  A. What that reimbursement percentage indicates, I believe, is that of the gross of receivable balance, the gross receivable balance, I guess, is a million 022. I'm looking in the 181 to 360 category. The reimbursement percentage was 49 percent, so the bad debt reserve percentage, I guess, would be location bad debt reserve percentage? This location by the bad debt reserve percentage.  MR. RYAN: Would you read the question back, please?	
1 A. No. Gross. 2 Q. Okay. I'm sorry. Gross before 3 contractuals, refer to following schedule for, 4 is that CA? 5 A. No. For AR. 6 Q. For AR. 7 A. Net of after contractuals. 8 Q. Yes. Now, why don't we go to the 9 following schedule, which I think you'll see on 10 page 25. Actually, page 26. 11 A. 25. 12 Q. This is titled Net Outpatient 13 Accounts Receivable, right? 14 A. Yes. 15 Q. And here, this is net of gross, 16 right? 17 A. Net of contractuals. 18 Q. So on this schedule you have 19 reduced it by any contractual amounts, right? 20 A. That's my understanding, yes. 21 Q. And in there, in that schedule, you 22 have something titled Reimbursement Percentage? 23 A. Yes. 24 Q. Right? Does that appear to be, 25 based your review of the gross schedule, the	Page 436	1 (Record repeated.) 2 MR. RYAN: I think you stated it 3 the opposite way from what it is. I think what 4 you referred to as the net accounts receivable 5 is in fact the contractual allowance. So 6 that's why I objected. 7 MR. TORBORG: I think you're right. 8 Q. So the net amount collectible would 9 be the 49 percent? 10 A. Right. 11 Q. That's what you're getting 12 reimbursed by? 13 A. Right. 14 Q. So that would be the net 15 receivable, right? 16 A. Right. 17 Q. So the contractual allowance would 18 actually be 51 percent? 19 A. Right. 20 Q. Right? 21 A. I think so. 22 Q. Okay. Now, if you look at the 23 previous schedule, you see the same terminology 24 I was asking you about before with regard to inpatient accounts, allowance percent.	Page 42

Page 441 Page 439 1 the reserve methodology amongst the hospitals Does going through this exercise were different. So I guess, yeah, it would allow you to infer that the allowance percent 2 have been part of that type of discussion. listed both on page 22, for the gross 3 Q. Okay. Do you recall having similar outpatient accounts, and page 16, on the conversations with anyone from Coopers during inpatient accounts, to be what the bad debt 5 the 1996 audit? 6 reserve percentage was? A. I can't remember specifically. 7 A. No, I don't think that's the case. There very well may have been. Certainly they 8 Why not? were looking at this. They were looking at the A. Let me see if I can figure out 9 10 Patcom receivables. I remember, you know, 10 these schedules. 11 Patcom receivables were a topic of discussion. O. Let me help you out. Why don't we 11 12 So I mean it certainly could have come up 12 take the first page. It's been a while 13 during the course of that audit, sure. 13 since -- okay. First page of this schedule. I Q. Why were the Patcom -- why do you 14 14 think I can make it real easy for you. 15 specifically remember the topic of the Patcom A. Okay. 15 16 receivables coming up? Q. Page 1, see where it says, adjusted 16 A. Because we had converted the 17 inpatient required allowance for Elkins Park. 17 18 billing system. We went from the Patcom system 18 A. Yes. 19 to the Envision system. So is there was Q. Patcom reserves, 983,000 and 19 20 receivables still outstanding on the Patcom 20 change, right? 21 system that were still out there at the time of A. Right. 21 22 the audit that, you know, some of which were Q. Okay. Now, let's go to page 18 of 22 23 relatively old, so there was an issue of how 27. Do you see toward the bottom right corner 24 much would we ultimately collect on those 24 the figure 983,000 and change? 25 receivables. 25 A. Yes. Page 442 Page 440 Q. Do you recall any general Q. Now, did that allow you to infer 2 conversations that were specific to the issue that the bad debt reserve percentage, of the adequacy of the reserve percentages on percentages, let's just stay with the specific, 3 the Patcom balances? allow you to infer that the allowance percent A. There could have been. I'm sure listed of 20 percent for the Blue Cross 5 there was. I can't recall any specific 6 accounts over 360 days in the Patcom system is conversations today. 7 the bad debt reserve percentage? Q. Let me back up and ask a little 8 A. Looks like the Blue Cross -- what 8 broader question. When you were at Coopers age category? 9 10 auditing the area of bad debt reserves, the Q. 360 days. 10 11 adequacy of bad debt reserves, how would you go 11 A. Looks like it would be 20. 12 about assessing the reasonableness of the O. All right. So that's the bad debt 12 13 client's total balance? 13 reserve percentage. So, in fact, we are A. Well, there's a number of ways, 14 comparing the same thing, are we not, when we 14 15 there's a number of different audit procedures 15 compared the 20 percent and the 70 percent on that the firm had established that you should 16 page 4? follow to try to get comfortable with the 17 A. I think so. 17 18 adequacy. Q. Do you recall any discussions 18 19 But one of the things you look at 19 within AHERF regarding the differences in the 20 is how old the receivables are, what the 20 reserve percentages that were applied from 21 reserve percentages are. And you could look at 21 Patcom receivables versus the Envision 22 subsequent receipts, cash that came in the 22 receivables? 23 A. Yeah, I mean I guess. I think it 23 24 After, you know, the end of the 24 related to I guess back to what we talked about 25 client's fiscal year to see if, you know, based 25 a number of different times this morning, that

Page 445 Page 443 Again, the timing is always an 1 on the cash that was coming in, whether the net 2 issue, how -- when you're issuing your audit receivables that were out there at the time you report and whether -- if you issue your audit 3 were auditing seemed to make sense or not. 3 report, you know, a month after the client's Q. I think you included in that list fiscal year end, probably most of the 5 looking at the reserve percentages. receivables wouldn't be collected within that A. Yes. 6 Q. Is a standard audit step, to the month after year end. 7 So a lot of times, you know, an 8 8 best of your knowledge, at Coopers in assessing accounting firm issues opinions relatively 9 the adequacy of the clients's bad debt reserves 10 quick after a client's fiscal year. They do 10 specifically reviewing the reserve percentages? 11 other type of system testing throughout the MR. RYAN: Objection. 11 12 course of the year to get comfortable with the A. I don't think you can say there's a 12 13 system and the processes as opposed to trying 13 standard audit step for every client. But my 14 to vouch cash receipts that came in after the 14 experience is with, you know, the hospital 15 year end. 15 clients, is, sure, you look at the reserve Q. Would the subsequent receipts test 16 16 percentages. Whether it's a standard required 17 be typically broken down by the various payors 17 step of the firm, I can't say that. 18 and by the age of the accounts? Q. Now, when you were at Coopers and 18 A. It can be. You know, it depends on 19 19 you wanted to assess the reasonableness of the 20 how extensive a test you want to do, what data 20 client's bad debt reserves, you didn't have 21 is available from the company. 21 time to go through every single account 22 Q. Do you recall whether during the 22 receivable on those hospitals' books, right? 23 1994 audit of AHERF, whether any members of the A. That's correct. 23 24 Coopers audit team performed any sorts of Q. So you would have to take audit 24 25 subsequent receipts test for the DVOG 25 steps short of that to make you comfortable Page 446 Page 444 1 receivables? with the adequacy of the reserves, right? A. I can't say for certain. We may 2 A. Yes. have done a little bit. I mean that was a Q. Is one of those steps looking to 3 step, depending on the hospital, or even 4 reserve percentages? doesn't have to be a hospital, it could be any MR. RYAN: Objection. 5 client, again, it depends on the type of issues 6 A. It can be. that are out there. Q. Does it -- I already asked that 7 If you think receivables are a 8 problem, you might do subsequent receipts You also said something about a 9 testing, because you're trying to get a little 10 subsequent receipts test? bit more comfortable that the number is okay. 11 A. Yes. If you issue -- you know, there's a 12 What can you tell me about that? 12 lot of public companies, you know, that issue 13 A. Well, if your balance sheet shows 13 their financial statements a couple weeks after 14 that you have a million dollars of receivables, year end. Like someone might be a December 31 15 say as an example, in June of '96, and say year end, they issue their financial statements 16 through October of '96 you've collected, you January 10. You're not going to get subsequent 17 know, 950,000 of the million dollars. That's a 17 receipts, so you go to other procedures to get 18 pretty good indicator that with the receivable 18 comfortable that the receivable balances would 19 balance that you had out there in June is 19 20 be okay. 20 probably reasonable. So as far as the '94 audit, we may 2.1 If you collected zero, that would 21 22 have done some. You would have to look in the 22 probably be a pretty good indicator that might 23 work papers. 23 not be good, that million dollar balance. So Q. You referred to earlier your 24 that's what a lot of times you'll try to do as perception that Coopers did extensive testing 25 an auditor.

Page 457 Page 455 at. Maybe it was half of the Patcom accounts, In the first page --Q. We don't need to go through the maybe it was 25 percent. I don't remember. 2 Q. Do you recall discussing with 3 first page. anyone from Coopers during the '96 audit any As you might guess, I'm just going sort of quantification of the level that the to ask you about the last segment, the last 5 Patcom receivables may be on the reserve? item, uncollectable Patcom accounts, 6 A. Specifically, I mean I can't 7 25 million. 7 8 remember today sitting here today. I mean my A. Yes. 8 general recollection is, you know, the Patcom Q. I assume that's millions, right? 9 10 accounts was an issue during the audit. So A. Yes. 10 11 there very well could have been some discussion Q. What is your -- first of all, given 11 12 about the Patcom reserves for the '96 audit. 12 the issues on here, do you have any idea what I mean I think when you look at -fiscal year this relates to? 13 13 14 when I was referring to the past couple days, A. I think it was '96. 14 15 some of the additional work that was done, you Q. Now, were there any Patcom accounts 15 16 know, in the Patcom accounts, it probably would left at the end of fiscal year '97? 16 17 be fair to say that was, you know, part of, you 17 A. You mean '6? 18 know, an overall type of analysis. '97. 18 Q. Q. Do you recall which of the DVOG 19 '97? 19 20 entities had Patcom accounts? In other words, Q. Yeah. So that we can establish 20 21 which hospitals were on the Patcom system? 21 that it's not '97. A. I thought it was Elkins Park, Bucks A. There could have been, but I 22 23 County, and St. Christopher's. 23 thought most of those had been written off at 24 Q. Okay. That's consistent with what 24 that point. 25 the schedules seem to indicate. Q. So most likely this is dealing with 25 Page 458 Page 456 I'm going to hand you what's 1 fiscal '96? previously been marked as Exhibit 105. For the A. I think it was '96, and the reason 2 record, this is a -- appears to be a July 15th, 3 I say that is because the deferred financing 1996 memo from Steven Spargo to Greg Snow which costs and the discount and extraordinary loss has been copied to, among others, Mr. Cancelmi. 5 5 items, that was related to the debt refinancing Do you remember seeing this 6 6 in fiscal '96. 7 document? Q. Okay. Do you recall what was met, 7 A. Yes. 8 to the best of your knowledge, by the language, Q. I want to focus -- I just want to uncollectable Patcom accounts of 25 million? 10 read the language first into the record. 10 A. Yeah. Whether there would be a 11 Mr. Spargo writes, "in reviewing the various 11 possibility that some of the Patcom accounts 12 A/R and net revenue adjustments that have been wouldn't get collected. 12 13 recorded in our June close, it occurred to me Q. Yes.

Q. Do you recall discussing with

Coopers & Lybrand in this time frame the

concept that there might be unknown loss 9

10 contingencies at the Graduate hospitals?

A. The background on this, and I think 11

12 I've testified a number of different times on

13 it, is that the rationale for establishing

14 these reserves was for, you know, related to

15 acquisitions there would be unknown loss

16 contingencies, and that they would be

17 transferred over to DVOG for their bad debt

18 reserve shortfalls.

O. I'm not asking you, though, about 19 20 the transfer step. I'm asking you about the

21 justification for recording the reserves in the

22 first place.

A. That was part of my, I think the 23

24 first part of my answer. As part of the, you

25 know, the acquisition, that there's oftentimes

5 that right? 6

A. I'm saying our experience.

7 Q. AHERF's?

A. AHERF's experience.

Q. Did that experience include the 9

MR. TORBORG: Objection.

A. I think so. 17

Q. Did those loss contingencies

19 include accounts receivable issues?

A. They could have. I don't remember.

20 Q. Certainly by April of 1997, you 21

No. 6 or next year or two. Q. Let me hand you, Mr. Cancelmi, what 6 7 Q. All right. And what you learned 7 has previously been marked as Exhibit 154. 8 from Mr. Spargo or Mr. Adamczak was that Is Exhibit 154 a memorandum that Mr. Buettner had advised that it would be you sent to a distribution list dated May 22nd, appropriate to capitalize the anticipated 1997 regarding Graduate system restructuring losses on the Health America contract, and then reserves? 11 12 amortize them over time, right? A. Yes. 12 13 A. Yes. Q. And the distribution list as shown 13 And so that would involve 14 on the second page consisted of 10 AHERF 15 establishing an asset known as goodwill on the employees, right? balance sheet of AHERF, right? A. Ten, yes. 16 17 A. Yes. Q. There's no one from Coopers & 17 Lybrand shown on the distribution list, right? 18 Q. And is it the case that when you 18 heard about Mr. Buettner's suggestion relating 19 19 A. No. 20 to the Health America loss contract, that you Q. Now, in this memorandum, you 20 21 discussed the fact that the \$50 million in 21 said to yourself, well, perhaps the same 22 accounting treatment could be applied to the 22 reserves that you had discussed previously in 23 \$50 million of reserves that we set up last 23 your April 14th memo, by this point in time had 24 month as restructuring cost? 24 been established on the books of the Graduate 25 A. My question is directed, though, to Q. Do you recall an actual 21 21 the specific sentence, where it states that, conversation, as opposed to a general 22 "Coopers & Lybrand who agrees with this understanding, do you actually recall a 23 23 approach as these reserves are viewed as 24 conversation? unrecorded preacquisition contingencies." Plus, I can, if I had time, refer to you back to another hundred pages of his testimony in his prior nine or ten days of depositions where he's answered these same questions. All right.  Why don't you just move on to another topic. I really don't think that last question you asked him is a question that has not been asked at least two or three or four or five or six times of him before right now.  MR. 1 please, Jaci. 2 MR. WHITNEY: "You have no idea 3 which one of these three individuals that 4 you've mentioned may have been involved, in 5 fact, was involved, do you?" 6 MR. TORBORG: Objection. 7 A. I believe that certain of those 8 individuals were involved. I can't say with a 9 hundred percent certainty exactly when, where, 10 time, and exactly what was discussed, six years 11 ago. 12 Q. I understand you don't remember 13 when, you don't remember where, you don't 14 remember what was said. But I don't think you 15 answered my question, which is: Is it the case 16 that you also don't remember to whom at Coopers 17 you believe you said this? 18 A. I have said a number of different 19 times, I thought that I've had conversations 20 with the three of them, but I can't say for a 21 hundred percent certainty, because I don't have 22 a tape recording of the conversation. I've 23 said that countless times. It's my general 24 recollection. And I've been saying that for		was probably necessary.  MR. TYCKO: Can we go off the record?  VIDEO TECHNICIAN: The time is 12:45. Q. When you wrote the sentence that we're looking at where it says, "this accounting treatment has been discussed with Coopers & Lybrand," who did you have in mind when you wrote that sentence as having discussed it with Coopers? A. Specifically at Coopers? I'm not sure if I had anyone in mind. I said with Coopers & Lybrand. Q. I'm sorry, it was an unclear question. I was trying to ask who at AHERF did you have in mind who you believed had discussed this with Coopers & Lybrand? A. It would have been myself. It was my recollection Steve had conversations. Al. And I don't think I was involved in any conversation with McConnell, but I believe Steve had told me that McConnell had had a conversation about it. Q. How come you didn't write in the memo who at AHERF had discussed this issue with Coopers & Lybrand? MR. TORBORG: Objection. A. I don't know. I didn't think it	Page 798	Page 80  1

Q. Did you attend any of the periodic meetings with Mr. McConnell? A. When? What point in time? Q. At any point in time did you attend the weekly or biweekly meetings with David McConnell? A. I was probably at some of them. The short period of time that I guess I reported directly to him, I think there was only one meeting that I attended. Al was there, too, I think. I don't know if anyone else was there. But at that you know, it was maybe a week or two period, there was just I remember one meeting that I was in there with Al and David. But other than that, I didn't meet with McConnell alone, that I remember, during that brief period that I reported to him. During the time when Steve was there, Al was there, you know, I was in meetings with McConnell every so often. Not that frequently. Q. Let me mark, please, as Exhibit 1093 a one-page document with Bates number DBR-AA 36504.		Q. Do you recall that point being raised with Mr. McConnell at this meeting? A. Specifically, no. I mean I don't remember the exact conversation. Q. Is it your understanding that Mr. McConnell was aware of the \$50 million transfer? A. Yes. Q. Is it your understanding that he approved of it? A. Yes. Q. Let me hand you, Mr. Cancelmi, what has previously been marked as Exhibit 39, I believe. It's a little bit hard to read. It's definitely from Mr. Lisman's deposition and it has Bates numbers DC8297, pages 1 to 2. Focusing on the first page of Exhibit 39, Mr. Cancelmi, is this a list of May financial statement adjustments? A. Yes. Q. And did you prepare this schedule? A. I believe so. Q. And is that your handwriting at the top of the page? A. Yes.	
1		1 Q. Could you read that for us, please? 2 A. Summary of adjustments provided to 3 Al and CPM. 4 Q. Is Al Al Adamczak? 5 A. Yes. 6 Q. Is CPM Charles P. Morrison? 7 A. Yes. 8 Q. When did you write that? 9 A. I don't know exactly. 10 Q. Did you write that after the AHERF 11 bankruptcy? 12 A. My notation? 13 Q. Yes, the one that you just read 14 into the record for us. 15 A. I may have. I can't say for 16 certain. 17 Q. Did you go back through various 18 documents you had in your files at some point 19 and try to identify which ones you recalled 20 providing to people? 21 A. Yes. 22 Q. And that's an example here, you at 23 the time in 1998 recall that back in 1997 you 24 had provided this particular schedule to 25 Mr. Adamczak and Mr. Morrison?	Page 80
